

LumenSM CDN fast, secure, reliable delivery where you want, when you want

Deliver quality end user experiences with the LumenSM Content Delivery Network.

Everywhere in the world, at all times of the day, your customers demand a perfect experience. Deliver on those expectations through fast, secure and reliable access with the Lumen Content Delivery Network. The scale and power of the Lumen global fiber network delivers video content and digital downloads to devices virtually anywhere—all while protecting your content, information and customers through inherently secure IP infrastructure.

Lumen Customer

Broadcast video acquisition

In-network acquisition of hundreds of broadcast channels for over-the-top video (OTT) and internet TV platforms via LumenSM Vyvx[®] Solutions enables rapid addition of channels as your content offering requirements grow.

Lumen provides **end-to-end solutions** for broadcast and internet video delivery.

240+ Direct connections to professional and college stadiums across the U.S.

Security with a global perspective

Because our CDN rides on the vast Lumen IP backbone, network-based security is inherent and our Threat Research Labs and Security Operations Center professionals have broad visibility into potential threats.

Connectivity to leading cloud partners

Our IP network is directly connected to major cloud storage platforms and we can access your content library for global delivery over our CDN.

Deliver a quality OTT experience

The Lumen CDN is specifically architected for high capacity, high availability and low latency, resulting in rapid and reliable delivery of content to end users.

Available Lumen CDN Object Storage.

Global reach with PoPs in **120** major markets on six continents.

Tomorrow ready, today

End users demand new content and new experiences. Our CDN is meeting these needs through delivery of next-gen formats including 4K/HDR and live streaming VR video.
