

GSA IT Schedule 70/Multiple Award Schedule (MAS)

Easy and convenient way for federal agencies to procure IT products and services from Lumen®

From improving operational efficiency and agility to better managing threats and risk, the future of digital government depends on your agency's ability to modernize network services. As a trusted provider to the federal government, Lumen offers cost-effective voice, networking, cloud, security and professional services. We aim to provide you with reliable connections — when and where you need them.

And with proven network security solutions such as Enhanced Cybersecurity Solutions (ECS), Managed Enterprise (MES) and Network Management Service (NMS), we can help proactively thwart threats before security breaches occur. Easy-to-use government contract vehicles like GSA IT Schedule 70/MAS enable you to modernize your IT on a fixed budget and purchase exactly what you need from Lumen.

Evolve your IT infrastructure at a competitive price

The GSA IT Schedule 70/MAS contract provided by Lumen offers IT communication services, security solutions, customer premise equipment (CPE), professional services, and electronic commerce services for agencies nationwide.

The contract program is easy and convenient, whether ordering via GSA Advantage® or working directly with Lumen's experienced and knowledgeable staff. Our Program Support team helps customers meet stringent government standards while establishing Schedule Blanket Purchase Agreements (BPAs) for use with ongoing purchase requirements to help reduce procurement costs and provide a more expedient acquisition route for new products. What's more, our engineering staff stands ready to provide the design, configuration, and training services that your agency requires.

Collaborating with Lumen, federal agencies receive the following benefits
