

# High-performance Delivery A Proven Global Solution

For businesses that demand seamless Internet video playback, high-performance websites or far-reaching digital file distribution, our Content Delivery Network (CDN) is the platform that delivers. The Lumen<sup>SM</sup> CDN is specially architected into the Lumen IP backbone, so we have direct control over the security, performance and delivery of your content.

## Built to deliver virtually everywhere

Our Origin Storage Platform is integrated with the Lumen<sup>SM</sup> CDN, enabling content libraries of virtually any size to be securely stored and easily managed—so end users can safely and quickly access the content they want.

**71%**

of Internet Traffic will be carried by CDNs by 2021<sup>1</sup>

**120**

Markets on six continents

**25.8**

Exabytes\* of data delivery in 2017

## Connect to leading cloud service providers

The Lumen IP network is directly connected to major cloud storage platforms such as Amazon, Microsoft and Google, so we can provide high-performance access to your content library for global delivery over our CDN.

**74.4**

Trillion\* Content requests answered in 2018

**68**

Petabytes\* of origin storage

**120**

Tbps\* of IP backbone capacity

### Website Acceleration

Boost speed, reliability and performance, even during peak loads and flash crowds

### Website Acceleration

Deliver consistently smooth and reliable on-demand video and streaming linear channels

### Website Acceleration

Deliver files, updates, patches and apps from nearly anywhere, simultaneously and seamlessly

# Own the Content Delivery Experience

Whatever you deliver, the Lumen CDN gets it there. Experience new levels of performance for your on-demand content. You expect speed and security from your CDN. With Lumen, you get it.
