How ethernet fuels digital business.

Leading digital businesses know that getting the edge on competition means transforming WAN networks to support their business initiatives. Ethernet is a critical component of any adaptive network. Ethernet is private and secure, supports real-time applications, real-time cloud connectivity and dynamic bandwidth scaling up to 3x, giving you the agility you need to succeed.

Improvements among firms that deploy Ethernet-WAN and track business and networking KPIs:

- **70%** on-demand bandwidth scalability
- **76%** improved networking costs
- **77%** revenue growth
- **81%** speed of application deployment

Built to deliver virtually everywhere.

**Scalable**
Get the bandwidth you need with access options from 2 Mbps up to 6 Gbps.¹

**Secure**
Seamlessly connect your enterprise across a dedicated, private network.

**Customizable**
Leverage a built-to-last solution that can be expanded and amended as business evolves.

**Scalable**
Link disparate sites, data centers and remote employees with point-to-point, point-to-multipoint connectivity or multipoint-to-multipoint connectivity.

Lumen™ ethernet services

**Global reach**
in North America, Europe and Asia Pacific

**#1 U.S. carrier**
Ethernet Services Provider by Vertical Systems Group

**Service SLA availability of**
99.999%³

Discover new levels of visibility, agility and control with Lumen™ software-defined network solutions.

- **Dynamically flex bandwidth up to 3x to accommodate peak traffic requirements.**
- **Provision connections between data centers and cloud providers in real-time.**
- **Control costs with unlimited scheduled, automated or ad-hoc adjustments.**²
- **Leverage real-time, 24/7 network performance visibility with Lumen™ Enhanced Management.**

Future-proof your WAN with our award-winning ethernet services.

²4-6 Gbps speeds subject to availability.
³In the event that service becomes unavailable for reasons other than an excused outage, customer will be entitled to a service credit off of the MRC for the affected service based on the cumulative unavailability of the service in a given calendar month. Applies to protected Ethernet services within North America (on and off-net) and Europe (on-net) only. Actual customer experience may vary.

Automated events-based changes require use of both Lumen™ Enhanced Management and Lumen™ Dynamic Capacity.

Services not available everywhere. Lumen may change or cancel products and services or substitute similar products and services at its sole discretion without notice. ©2020 Lumen.
