

Lumen and Mitel

Enhance voice business capabilities and maximize budgets.

Lumen is a global network provider delivering end-to-end solutions for your company's voice and data networking needs. We provide unified communications (UC), security, data center, cloud, optical networking, telepresence and wireless services, and collaborate with leading technology providers in hardware and services to help meet your business communications needs.

For state-of-the-art voice solutions we work with Mitel as an elite partner to provide cost-effective, resilient networking solutions.

Complete solutions

Solve your business networking and communications challenges using our design, installation and maintenance services, combined with our exceptional standard of service for voice and data.

Nationwide network

Get the speeds you need with one of the largest fiber footprints in the United States, capable of supporting 2.5Gbps (OC-48), 10Gbps (OC-192) and 40Gbps (OC- 768) transmission rates.

Financing

Choose from multiple financing plans for your convenience.

Mitel

With 45 years of industry leadership, we help businesses connect, collaborate and provide better experiences for their customers. Mitel is trusted by 70 million business users in more than 100 countries.

Throughout our long history of industry experience, innovation has been core to Mitel's DNA - allowing us to become experts in evolving to meet your needs and help you do the same for your customers. It's why we're the only company that wakes up every day exclusively focused on helping you take your communications from where they are today to where you - and your customers - need and expect them to be:

- 4.7 million cloud users worldwide
- #1 market leader in total cloud seats worldwide
- #1 in private cloud worldwide
- #1 in UC market share for Europe
- Over \$1.3B in revenue
- Five-time Gartner Magic Quadrant Leader for UC
- Over 1,600 patents and applications

Why Lumen?

Lumen provides ~450,000 global route miles of fiber and serves customers in more than 60 countries. We partner with best-in-class equipment providers for customized business voice and data solutions and employ highly-skilled engineers who are trained to operate our state-of-the-art equipment.
